## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 29 April 2002 has been entered.

### ***Response to Amendment***

2. Claims 1-46 have been canceled and claims 47-63 have been added as requested in the amendment of paper #17, filed 29 April 2002. Claims 47-63 are pending in the instant application.

### ***Election/Restriction***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 47-49 and 61-63, drawn to a method of inhibiting appetite or the gain of weight by administration of a non-polypeptide drug or chemical, classified in class undetermined, subclass undetermined (since no structure is provided for the drug or chemical).
  - II. Claims 47-60, drawn to a method of inhibiting appetite or the gain of weight by administration of a peptide analog of MCH, classified in class 530, subclass 300, for example.

4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are directed to methods which have different method steps and/or starting materials, and therefore, are unrelated.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the necessity for non-coextensive literature searches, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
